The park at Hellshire Glades 1 got a total debushing to create more useable space with better visibility. What a difference!

## SECURITY UPDATE: POLICE INCREASE PATROLS, SPOT CHECKS

In the wake of another shooting in Hellshire Park on Sunday 4th of June, the police have stepped up further with their patrols and vigilance in the area. Members of the AHLC Executive and Safety and Security Team met with the Police team and have been assured of this. (Cont. on Pg 2)

## SECURITY UPDATE: POLICE INCREASE PATROLS, SPOT CHECKS cont.

The police want to also make it clear that the recent dumping of a body in the swamp near the Fort Clarence Roundabout on the Hellshire Main Road was a crime external to the Hellshire area, but the use of increased patrols and spot checks will be used to deter such activities. The incident caused delays as the road was closed during the search for a suspect and processing of the scene. A strong contingent of police carried out the June 8 operation.

## HELLSHIRE POLICE POST GETS NEW SUB OFFICER

Sergeant Micky Lord is new sub officer in charge of the Hellshire Police post. We welcome him heartily and look forward to his contributions.

We also acknowledge our appreciation for the work of Sergeant Baker and Corporal Althea Nevins who recently held the post.

## HELLSHIRE WORKING TOGETHER ON LABOUR DAY 2023 cont.

Sandhills residents take part in road patching and clean-up activities.

The Fort Hill community came out early for tree planting and street clean-up.

## BRIGHTER NIGHTS FOR SANDHILLS VISTA

Streetlights have returned to Sandhills Vista. Councillor Vanrick Preddie shared that after over three years of lobbying, nine streetlights were recently replaced in Sandhills Vista.

The residents are thankful for the revived lights and improved sense of security.

Hellshire Glades CA President, Basil Forsythe was among several residents and police personnel who participated in International Bee Day on May 21.

The St. Catherine Beekeepers Association activities led by Jennifer Lee saw the planting of fruit trees to encourage pollination by bees. Bees support the growth of trees, flowers, and other plants, which serve as food and shelter for creatures large and small.
